23rd March 2020

Dear Parents and Carers,

I would like to thank you sincerely for following government advice in keeping your child at home wherever this is at all possible.

While we are very aware that this period of school closure may be very difficult for you, it is incredibly important that each one of us follows this guidance to play our part in the country's fight to defeat the virus.

Our academy remains closed to the vast majority of pupils with a very small number of children of key workers or vulnerable children in attendance. We currently have a dramatically reduced number of teachers and support staff in school on a daily rota. You can still contact us in the usual way although there are fewer administrative staff on-site so response times may be slower at present. Email is the best form of contact: **advice@rivers-aspirations.org**, all letters and guidance previously sent to you are on our website where updates will be posted. We will ensure that the notice regarding closure posted on the academy website remains up to date to keep you informed of any changes in line with the government's advice. For more details, please see the *'Latest Information'* tab on our website.

It is really important that your child/children do study whilst at home. A regular learning routine would help students both educationally and emotionally to cope with these extraordinary circumstances. We are aware that for some families, access to the computer may be shared and hence staff will understand if your child does not complete all work. For further guidance, please visit *'Using Google Classroom'* under our *'Latest Information'* tab on our website - http://www.rivers-aspirations.org/886/using-google-classroom

Once again, thank you for acting in line with government advice, this has enabled us to keep our whole school community as safe as possible. I must stress that it is so important that you continue to do this over the coming days and weeks. Please stay safe.

Best regards,

Andria Singlehurst,
Principal.
