

## **Assembly Programme**

Students receive a weekly assembly which supports their wider personal development. Assemblies take place weekly in faculties in mixed aged groups and are led by senior teachers. They enrich our curriculum provision with a comprehensive and inspirational programme to support our students personal development and raise their awareness of key issues.

Assembly topics are carefully mapped to promote the culture and ethos of our academy, fostering fundamental British Values, raise social, moral, spiritual and cultural awareness; promote personal, social, health, and relationship education.
